Submission

Nelson's Long Term Plan 2015 - 25

This document is so wordy leaving it wide open to any interpretation the Nelson City Council wishes it to mean - not transparent - smoke and mirrors

The CEO/Bureaucracy of Nelson City Council draws parity with Auckland City Council and fits the description bestowed on that by Phil Gifford on ZBNewstalk radio:-

" rat's nest of incompetency"

undermining our fundamental Democracy

Our elected Council members are manipulated by the Bureaucracy -- Where is the integrity?

Question #1: Who appoints the CEO? (who employs and manages the Bureaucracy)

Question #2: Whoever was it who signed Nelson Council to this Agenda 21 plan instigated by the United Nations?

Question #3: What power do the Citizens and Rate Payers have to have a REAL say?

Since we, the Citizens and Rate Payers are actually the people who have to pay for the grandiose plans only signed on for Core Services

The metred Water Charges are Rates, a back-door way of increasing the Rate-take and unfair

It is only fair for us to pay for water-storage and reticulation - and the upkeep of services

Thank you for your attention

Sincerely,
Doris Catherine Crafar Staig (known as Dot)

Apology for being late, please forgive!

My submission to the Long Term Plan 2015 - 25 is a couple of hours late due to an incident that occurred about 11:00am... I was poised to send it when my Postwoman was riding by having just delivered my mail, as she turned from Waterdale Way into Westbrook Tce a cyclist riding on the footpath ran into the Postie knocking the Postie off her bike ---- Being first on the scene (and a Nurse) I immediately kneeled and held her head which was at an odd angle, and she had severe pain in her lower back, luckily a motorist stopped and dialled 911 and called the Ambulance, just before noon the ambulance guys had attended, put on a neck-brace and headed for hospital

This incident illustrates exactly the Brook Valley Group's concerns about shared walk-ways !

Please consider my submission
Thank you
Sincerely
Dot Crafar Staig
