Hi Barry

As outlined in my previous email, at Nelson City Council, Parking Wardens are not employed directly by the council but by a contractor (Environmental Inspections Ltd) who undertake parking enforcement on the councils behalf.

1. The contract requires Environmental Inspections Limited to achieve a minimum of 5200 patrol hours per year. Currently we achieve this by employing 3 full time wardens plus an additional warden over the busy summer months of December to March inclusive. So I guess we have the equivalent of 3.33 full time officers.
2. Total number of parking and stationary infringements issued (combined figure) = 12,913
3. Total value of parking and stationary infringements issued (combined figure) = \$1,000,372.00

Kind regards

Brent Edwards

Good afternoon Councils

In addition to my previous request, I am conducting a review of parking warden remuneration to get some indication of where the median is nationally for these positions. In order to establish relevant workloads and individual exposure to public contact and risk, I request the following information:

Period for data to cover: 01 July 2018 to 30 June 2019. (18/19 financial year).

1, Number of full time parking warden positions. 2, Total number of parking and stationary infringements issued (combined figure) 3, total value of parking and stationary infringements issued (combined figure).

I expect this should be reasonably easy to collate. If there are any issues please contact me for further clarification.

Thank you in anticipation of your responses.
